5. Measure & Line Length

Full measure — 100%

A comfortable measure keeps the reader's eye anchored on the line. Narrower columns break more often and slow the cadence; wider columns flow faster but demand more from the eye travelling back to the next line start.

120 mm column — 66.7%

A comfortable measure keeps the reader's eye anchored on the line. Narrower columns break more often and slow the cadence; wider columns flow faster but demand more from the eye travelling back to the next line start.

90 mm column — 50%

A comfortable measure keeps the reader's eye anchored on the line. Narrower columns break more often and slow the cadence; wider columns flow faster but demand more from the eye travelling back to the next line start.

7. Letter-Spacing & Case

Uppercase, wide tracking	NextPDF Type System
Capitalize, normal tracking	NextPDF Type System
Lowercase, tight tracking	NextPDF Type System

8. Kerning-Sensitive Pairs — Tracking Off / On

Character-spacing (Tc) control applied to letter pairs — AV, WA, TO, TA — that read loosest at zero tracking. This is manual tracking, not automatic glyph-pair kerning.

0 pt tracking (off)	AVIATION WATER TOTAL WAVY TASTE
−0.4 pt tracking (on)	AVIATION WATER TOTAL WAVY TASTE
